Dedicated and detail-oriented aspiring Software Engineer with a passion for both hands-on work and problem-solving. Currently pursuing a degree in Computer Science, I thrive in environments where I can combine technical knowledge with practical application. With experience in various roles that require precision, creativity, and teamwork, I am driven by a passion for building and creating solutions that make a real-world impact. I think differently, and am Excited about the opportunity to apply my skills and enthusiasm for engineering in a new field.

Experience

Walmart	July 2017 - present
Digital eCommerce	Spearfish SD/ Fargo ND

I've been with Walmart since I was 17, taking on roles from stocking and inventory management to serving as department manager for eCommerce at 19. After two years in management, I chose to shift my focus and pursue a degree in computer science, which I'll complete in April. Thanks to Walmart's "Live better U" program, I've been able to advance my education while continuing to work.

Education

Southern New Hampshire University	2021 - 2025
Computer science	Bachelor's degree

3.37

Thanks to Walmart's "Live better U" Program, I have been able to pursue my education full time while still working full time at Walmart.

Projects

Portfolio Website   9/7/2024

https://caleebbuth.github.io/

This is a website to display some of my work as a computer science student. I just started work on it on the 7th of September so I still have a long way to go. I am working on it as often as I can right now, updating a feature every day or two.
